All over  
the  
world

Here we  
have  
some  
examples

Why do we consume caffeine?

The image is a collage of four distinct scenes. The top-left quadrant features a dark, semi-transparent geometric pattern of overlapping triangles. The top-right quadrant shows three construction workers from behind, wearing bright yellow hard hats and orange safety vests with reflective stripes. The bottom-left quadrant depicts two soldiers in full combat gear, including helmets and tactical vests, holding rifles in a wooded area. The bottom-right quadrant shows a person with long hair lying face down on a desk cluttered with papers and a mug, suggesting exhaustion or sleep. The text 'Who do consume caffeine?' is overlaid in white, centered across the middle of the collage.

Who do consume  
caffeine?

Why may caffeine  
be considered a  
drug?

If consumers can't have a cup of coffee, energy drink or a cup of tea, they may present. (Some scientists opinion).

- ▶ PHYSICAL DEPENDENCE
- ▶ HEADACHES
- ▶ THE USER'S MOOD MAY FLUCTUATE FROM HIGH TO LOW

A photograph of two female scientists in a laboratory. They are wearing white lab coats, safety glasses, and gloves. One scientist is using a pipette to transfer liquid into a multi-well plate, while the other is looking on. A microscope is visible in the foreground. The background shows laboratory equipment and shelves. The image is dimmed and serves as a background for the text.
